

SK PHARMA LTD

Keprofen Patient Information Leaflet

Read this leaflet before using this product. Keep it for reference and ask your doctor or pharmacist if you have questions. Do not share a prescribed medicine with another person.

1 What this product contains and is used for

Composition: Ibuprofen suspension 100mg/5ml

Therapeutic class: NSAID. Reduces pain and inflammation.

Uses: Selected painful and inflammatory conditions.

2 Before using this product

Do not use if you are allergic to an active ingredient or any other ingredient. Get emergency help for difficulty breathing, collapse or swelling of the face, lips, tongue or throat.

Do not use with active stomach ulcer or bleeding, previous NSAID-related bleeding or certain severe heart, kidney or liver conditions. Avoid during pregnancy unless specifically advised; use the shortest necessary course.

Other medicines: Other NSAIDs, aspirin, anticoagulants, steroids, lithium and some blood-pressure medicines increase risk.

Pregnancy and breastfeeding: ask a clinician before use if you are pregnant, planning pregnancy or breastfeeding. The advice depends on this product and your condition.

3 How to use this product

Use the prescribed dose for the shortest period needed. Do not combine with another NSAID.

For an oral liquid, measure with the supplied oral syringe or measuring device, not a household spoon. Shake only if the verified formulation is a suspension and its label instructs you to do so.

Missed dose: ask your pharmacist for the product-specific rule. Do not take an extra dose automatically; some medicines have special missed-dose instructions.

Too much: seek urgent medical advice or emergency care and take the container with you. Do not wait for symptoms or induce vomiting.

Keprofen Patient Information Leaflet

4 Possible side effects

Not everyone develops side effects. Effects listed here are a concise selection; the final product label must include the complete medicine-specific information.

Possible effects: Indigestion, nausea, abdominal pain, dizziness and fluid retention.

When to get help: Vomiting blood, black stools, chest pain, stroke symptoms, severe rash or markedly reduced urine needs urgent assessment.

Get emergency help for a severe allergic reaction. Contact your doctor or pharmacist for troublesome or persistent symptoms. Report suspected reactions to SK Pharma with the product name, batch number, dates of use and symptoms.

5 Storage and safe disposal

Keep out of the sight and reach of children. Store in the original closed container and follow the temperature and light-protection conditions printed on the pack. Do not use after the expiry date or if the seal is damaged.

An expiry date on a label does not establish the period allowed after opening. Ask your pharmacist about the approved after-opening period and disposal of unused product. Do not discard medicines in household wastewater.

6 Presentation and ingredients

Brand: Keprofen. Presentation: Oral suspension; 60 ml.

Active ingredients: Ibuprofen suspension 100mg/5ml.

Other ingredients: the full excipient list, including any sugar, alcohol, allergens, preservatives and capsule-shell components, must be completed from the approved SK Pharma formula.
