

SK PHARMA LTD

Cough & Cold Patient Information Leaflet

Read this leaflet before using this product. Keep it for reference and ask your doctor or pharmacist if you have questions. Do not share a prescribed medicine with another person.

1 What this product contains and is used for

Composition: Pseudoephedrine 36mg+Paracetamol 300mg +Tripolidine 1.5mg

Therapeutic class: Cold-symptom combination. Analgesic, decongestant and antihistamine combination.

Uses: Short-term relief of cold symptoms.

2 Before using this product

Do not use if you are allergic to an active ingredient or any other ingredient. Get emergency help for difficulty breathing, collapse or swelling of the face, lips, tongue or throat.

Do not combine with other cough, cold or sedating preparations. Childrens age limits must be confirmed. Report high blood pressure, heart disease, glaucoma, thyroid disease or urinary problems.

Other medicines: MAO inhibitors and serotonergic drugs interact with some ingredients. Alcohol and sedatives increase drowsiness. Check for duplicate paracetamol.

Pregnancy and breastfeeding: ask a clinician before use if you are pregnant, planning pregnancy or breastfeeding. The advice depends on this product and your condition.

3 How to use this product

Use only the verified product-specific dose and age range. Persistent cough, fever, breathing difficulty or blood in sputum needs medical review.

Missed dose: ask your pharmacist for the product-specific rule. Do not take an extra dose automatically; some medicines have special missed-dose instructions.

Too much: seek urgent medical advice or emergency care and take the container with you. Do not wait for symptoms or induce vomiting.

Cough & Cold Patient Information Leaflet

4 Possible side effects

Not everyone develops side effects. Effects listed here are a concise selection; the final product label must include the complete medicine-specific information.

Possible effects: Drowsiness or insomnia, dizziness, dry mouth, nausea and palpitations; effects depend on ingredients.

When to get help: Severe palpitations, seizures, breathing difficulty or fever with agitation and muscle stiffness needs urgent assessment.

Get emergency help for a severe allergic reaction. Contact your doctor or pharmacist for troublesome or persistent symptoms. Report suspected reactions to SK Pharma with the product name, batch number, dates of use and symptoms.

5 Storage and safe disposal

Keep out of the sight and reach of children. Store in the original closed container and follow the temperature and light-protection conditions printed on the pack. Do not use after the expiry date or if the seal is damaged.

An expiry date on a label does not establish the period allowed after opening. Ask your pharmacist about the approved after-opening period and disposal of unused product. Do not discard medicines in household wastewater.

6 Presentation and ingredients

Brand: Cough & Cold. Presentation: 10x10 Tablets.

Active ingredients: Pseudoephedrine 36mg+Paracetamol 300mg +Triprolidine 1.5mg.
